**CHELSEA LANGMAN** Registered Nurse  
Owner and Operator of Skin Aware

Chelsea Langman is a Registered Nurse, she has 16-years of experience as a specialist skin cancer nurse and dermoscopist. Chelsea is passionate about raising awareness of skin cancer through prevention and early detection, she utilises the latest in artificial intelligence and technology to assist her. Chelsea started her business Skin Aware 18 months ago, helping workplaces to implement UV awareness and screening programmes through education and screening clinics. Chelsea also trains and educates registered nurses around skin cancer and has an interest in the use of technology to assist in healthcare.

**HER TOPIC WILL INCLUDE:**

- skin cancer facts and figures in NZ
- contributing factors to rates of skin cancer in NZ
- non-modifiable risk factors
- importance of early detection and early intervention
- benign lesions
- types of skin cancers and how to assess a skin lesion
- current treatment options for skin cancer
- screening options for patients
- tools available to assist primary healthcare
