

YOU'RE INVITED TO A **ZOOM WEBINAR**

**RURAL NURSES
NEW ZEALAND**
Nga nahi tuawhenua o Aotearoa

MANAGEMENT OF DIABETES WEBINAR

WEDNESDAY
29TH APRIL
7PM - 8PM

MIRANDA WALKER - RN, MPhil

Renal and Diabetes Nurse Specialist, Independent Consultant

Miranda is a Registered Nurse, and has specialised over the last two decades in diabetes and renal nursing, working in clinical, education, and quality improvement. Her research interest and passion lie in the early detection and treatment of diabetic kidney disease in the primary care setting, and believes empowering people towards effective self-management, and modernising out-dated healthcare models are crucial for tackling the alarming rise in long term health conditions.

HER TOPIC WILL INCLUDE:

- Aetiologies, differences and similarities between types of diabetes
- Prevalence and risk factors associated with type 2 diabetes
- Complications of type 2 diabetes and their impact on people and our community
- Strategies for prevention
- Management of type 2 diabetes – it's not as simple as it sounds
