

OEDEMA OF THE LOWER LIMB

ASSESSMENT, PLANNING & TREATMENT OPTIONS

ONLINE STUDY EVENINGS

This webinar, on two consecutive evenings, will provide a mixture of academic and practical presentations looking at assessment and treatment options for oedema of the lower limb, as well as presentations from companies updating us on related products.

We look forward to sessions that will provide useful updates, practical tips, and the opportunity for the sharing of ideas during the Question and Answer sessions.

Optional extra: ABPI ASSESSMENT WORKSHOP

22nd April, 12:00 – 2:00pm, at Dunedin Hospital

These webinars will be followed by an optional practical workshop. Participants will learn, practise and be assessed in the skill of ABPI assessment. Upon registration you will receive a workbook covering theoretical components around ABPI assessment which you must complete prior to attending. Certificate of completion of workbook and workshop = 5hrs PD.

Please register as spaces are limited. Registrations – email ruth.mullenger@otago.ac.nz.
