Nga nahi tuawhenua o Aotearoa

# HEART MURMURS 101

WEDNESDAY,  
7TH APRIL 7PM - 8PM

## **DR NICOLA EDWARDS**

*MRCP(UK), PhD, FRACP - General Cardiologist, ADHB*

Nicky is a general cardiologist with a specialist interest in heart imaging, specifically MRI and echocardiography. She has an interest in heart valve disease and is actively involved in research particularly looking at earlier detection of valve disease and treatments as well as effects of other diseases such as kidney disease on the heart.

She worked as a cardiologist for three years in one of the UK's largest hospitals before emigrating to NZ with her family in July 2018. Her current role is as Echocardiography Director and general cardiology consultant working at Auckland City Hospital.

### **THE TOPIC WILL INCLUDE:**

- **Prevalence of valve disease in NZ**
- **Auscultating patients over 65 and how to get patients to express symptoms**
- **Understanding an echo report**
- **When should I be worried and discussing findings?**
- **Echo and access to Echo**

**REGISTRATIONS REQUIRED**
